KEY TAKEAWAYS

WHAT TO REMEMBER

1

New entry point: Zoho CRM — not Zoho Recruit. The website form now creates the record directly in CRM.

2

One flow — New Submission → Consultation → (Sales Call branch) → Stage 1 → Stage 2 → Move to Recruit.

3

CTI Office focus — follow up on Basic Information and Stage 1 Document Information for every participant.

4

Use the right tools — Custom Views to filter daily, Notes to record issues, Attachments via WorkDrive link with clear naming.

5

End of journey in CRM — once host company approves at Stage 2, the record moves to Zoho Recruit for visa & placement.
